Thank you for purchasing Perle products! For over 25 years, Perle Systems has been a pioneer developer, manufacturer and vendor of award-winning networking products that link people to information reliably and securely across networks.

Perle distinguishes itself by its extensive networking technologies and depth of experience in all major network connectivity environments. Perle Systems has offices and representatives in 13 countries and sells its products worldwide through a combination of distribution channels, systems integrators and original equipment manufacturers ("OEMs").

Perle operates under the highly coveted ISO 9001:2000 certification model for quality assurance in production, installation and servicing, ensuring that we meet the highest standards possible.

PERLE PRODUCTS INCLUDE:

Console Servers (CS9000)

Available in 8, 16, 24, 32 and 48-port models, these cost-effective network management tools deliver serial device access and console port management from any location using In- and Out-of-Band connections.

Serial/Terminal Servers (IOLAN+, JetStream, LanStream)

Perle is a market leader with a full range of standalone serial servers available from 1 to 48 port models that are by far the best products available in terms of functionality, speed, reliability, and price.

Multi-port Serial Cards (UltraPort, SX, RIO)

The widest variety, best value, most aggressive pricing and leading range of O/S support in multi-port serial cards today. Perle's fixed or modular solutions provide 1-512 ports per server.

UltraPort USB adapter

The UltraPort USB to Serial adapter, makes it easier than ever to add 1 to 8 serial ports to your system with easy plug and play and hot plug features.

Routers (P800, P1700 & P2600)

Perle's high speed, multi-function VPN-enabled routers provide complete and secure solutions.

Remote Access Solutions (833 & PCI-RAS)

A full range of dial-in/dial-out products supporting 2 to 120 simultaneous connections. The 833 range has comprehensive RAS functionality optionally configured and managed through a CISCO IOS™ interface.

AS/400 Remote Communication Solutions (594, Model 3i, Affinity)

Perle is the leader in AS/400 host connectivity and now offers low cost VPN alternatives for remote Twinax installations and IP migration.
