

Essential Network Connectivity

# Thank you for purchasing Perle products!

All product documentation, installation and operational information is contained on the enclosed CD. Should you require any further help or support, please contact your Perle reseller or distribution partner. Alternatively, you can find your local Perle office at [www.perle.com/contact](http://www.perle.com/contact).

Perle Systems provides a full range of multi-protocol connectivity solutions that link people to information reliably and securely across networks. Perle distinguishes itself through solid channel relationships, superior products, quality service, support and lifetime warranties.

By uniting the product ranges of recently acquired companies (Chase Research, Specialix and Affinity) and technologies (Trinexus, Zeta and PORTtel), Perle delivers leading edge connection technologies demanded by users. And, we take pride in offering products that are easily installed and supported by channel partners. With this purchase, you join many of the world's largest companies that use Perle connectivity products for their business critical applications.

## **PERLE PRODUCTS INCLUDE:**

### **Routers (P800-P2600 & LinkStream)**

Perle's high speed, multi-function VPN-enabled routers provide complete and secure solutions for connecting Ethernet, Twinax and serial devices to WANs.

### **Remote Access Solutions (833 & PCI-RAS)**

A full range of dial-in/dial-out products supporting 2 to 120 simultaneous connections. The 833 range has comprehensive RAS functionality optionally configured and managed through a CISCO IOS™ interface.

### **Console Servers (CS9000)**

Available in 16 and 24-port models, these cost-effective network management tools deliver serial device access and console port management from any location using In- and Out-of-Band connections.

### **Serial Servers (IOLAN+, JetStream, LanStream, LinkStream)**

Perle is a market leader with a full range of standalone serial servers that are by far the best products available in terms of functionality, speed, reliability, and price.

### **Multi-port Serial Cards (FAST, I/O8, Speed, SX, RIO)**

The widest variety, best value, most aggressive pricing and leading range of O/S support in multi-port serial cards today. Perle's fixed or modular solutions provide 4-512 ports per server.

### **AS/400 Remote Communication Solutions (594, LinkStream, Model 3i, Affinity)**

Perle is the leader in AS/400 host connectivity and now offers low cost VPN alternatives for remote Twinax installations and IP migration.
